-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***DETAILED ACTION***

1. This action is responsive to the application filed on July 31, 2002.
2. Claims 1-28 are pending in the application.

***Election/Restrictions***

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-6 and 18-23, drawn to an online firmware update system applied in a liquid crystal panel display controller, classified in class 717, subclass 168.
  - II. Claims 7-12 and 24-28, drawn to OSD parameters modification system applied in a liquid crystal panel display controller, classified in class 345, subclass 530.
  - III. Claims 13-17, drawn to a control interface applied in a liquid crystal panel display, are classified in class 345, subclass 204.
4. The inventions are distinct, each from the other because of the following reasons: Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as any system utilizing firmware, and not including a liquid crystal panel display or controller thereof, as required by Inventions II and III. Each of inventions II and III has separate

utility from invention I in a system including either a liquid crystal panel display or liquid crystal panel display controller, and not including firmware updating as required by Invention I. Invention II has separate utility from invention III in any liquid crystal panel controller that does not employ the control interface of invention III. See MPEP § 806.05(d).

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purpose as indicated is proper, and the search required for each Group is not required for the other groups, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

***Conclusion***

7.. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Kou-Yi Kevin Chen** whose telephone number is **571-272-8592**. The examiner can normally be reached from 8:30 am to 5:00 pm on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kakali Chaki can be reached on 571-272-3719. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
